Web service decomposition: Edge computing architecture for **cache**-friendly e-commerce
applications
J Tatemura, WP Hsiung - Electronic Commerce Research and ..., 2006 - Elsevier
... Alternatively, when object data is stored in a database, **triggers** on tables can be ... manage data
dependency between web content and data source in order to maintain web **caching**. Data **update**
propagation (DUP) [3] maintains data dependency between cached objects and the ...

Engineering highly accessed Web sites for performance
J Challenger, A Iyengar, P Dantzig, D Dias, N Mills - Web Engineering, 2001 - Springer
... be configured to bypass the **cache** for the fetch, but to add/replace the item in the **cache** when
it ... The database loader is modified so that after committing the actual transaction updates, a single
update to the commit ... The database **trigger** is now attached only to the commit table. ...

[PDF] **Cache** portal: technology for accelerating database-driven E-commerce web sites
WS Li, KS Candan, WP Hsiung, O Po, D Agrawal, Q ... - Proc. Of VLDB, 2001 - vldb.org
... with most existing work, where the invalidation checking is implemented using database **trigger**
functions, the ... 2. We also demonstrate invalidation of affected pages (if any) after an **update** query
is ... 3. In the figure, we see that the system architec- tures with various **cache** hit rates ...

[PDF] Using code transformation for consistent and transparent **caching** of dynamic web conter
S Bouchenak, S Mittal, W Zwaenepoel, S EPFL - 2003 - Citeseer
... Periodically, they read the database **update** log and perform invalidations according to the
association between ... write queries and cached web pages [6]. The occurrence of said events
triggers invalidations. ... is to use both a dynamic **web page** and a database query result **cache**. ...

[PDF] Web Acceleration for Electronic Commerce Applications
WS LI, KS Candan, WP Hsiung, D Agrawal, Q Luo, W ... - WWW Posters, 2001 - www10.org
... with existing work where the invalidation checking is im- plemented using database **trigger**
functions, invalidator ... server and Web servers, and a modified Apache Web server as the **cache**
server ... The **update** rate is 1 per second and each dynamic content page request results in a ...

Evaluations of architectural designs and implementation for database-driven web sites
WS Li, WP Hsiung, O Po, KS Candan, D ... - Data & Knowledge ..., 2002 - Elsevier
... the performance metrics of database **update**, query, and synchronization; (2) **trigger** overhead;
and ... on their performance under various conditions, including varying request rates,
update-to-request ratio, **cache** hit ratio, number of regional AS/data **cache** suites deployed ...

[CITATION] Update of materialized WebView
B Zhang, Z Sun, W Jin - IEEE International Conference on e-Business ..., 2005

Batching of invalidations and new values in a web **cache** with dynamic content
GP Copeland, MH Conner, GA Flurry - US Patent App. 09/740,459, 2000 - Google Patents
... returned to the shopper, it is more efficient to **cache** the JSP than to retrieve the same data each
time the cart is displayed. [0022] An advertisement appearing on the **web page** dis- plays a URL,
which changes each time the page is requested. This is too high an **update** rate to ...

[CITATION] Caching personalized and database-related dynamic Web pages
YK Chang, YR Lin, YW Ting - Networking, Architecture, and Storages, 2006. IWNAS' ..., 2006

Web **caching** for database applications with Oracle Web **Cache**
J Anton, L Jacobs, X Liu, J Parker, Z Zeng, .. - Proceedings of the ..., 2002 - portal.acm.org
... the fragment to be shared with other pages, and reduce the fragment's **update** frequency. ... The
application with JESI and Web **Cache** needs less than 22 minutes of CPU time in ... on underlying
data stored in databases, events external to the Web application can **trigger** changes in ...

Database change notifications: primitives for efficient database query result **caching**
C Galindo-Legaria, T Grabs, C .. - Proceedings of the 31st ..., 2005 - portal.acm.org
... Operations such as DROP TABLE must **trigger** invalidation of all sub- scriptions that rely on this ...
We demonstrate subscrip- tion processing including query and **update** plan rewrit- ing, **caching**
query results at ... MT- **Cache**: Transparent Mid-Tier Database **Caching** in SQL Server. ...
